The complete range of coverage maps is available to Telecom MobileNet™ customers and is continually being updated as the service expands. If you're travelling interstate and would like any coverage maps you don't already have, simply ring this number and they will be sent to you. Or in turn, contact your local Telecom MobileNet™ dealer.

Telecom MobileNet coverage provides access to 84% of Australia's population and covers approximately 4% of the land mass.

Telecom AUSTRALIA **MobileNet**™

Telecom MobileNet™ is designed to provide the optimum available technology and service within the defined coverage area. However, as with any radio system, some locations will inhibit the availability of an effective signal. In some instances coverage will be available beyond that which is shown on the map.
